

Foals "Two Trees"

Help yourself, help the rest
Give blood away
Give blood today
Each drop away

Help yourself, help the rest
Inhale, exhale
Lungs paper frail
Light up the way, girl

Don't let go, just breathe slow
So hold on, it will pass
Don't give up, don't let go
Gray clouds, they'll, they'll break up

Rest yourself, rest your head
Be still, play dead
[Incomprehensible]
Forget all the rest

Free yourself, free your head
Don't shy away
Open your veins
And wait 'til the rain goes

Don't let go, just breathe slow
So hold on, it will pass
Don't give up, don't let go
Gray clouds, they'll, they'll break up

Just breathe slow
