4:52

children sacrificed  
millions die every day  
money hungry killers wasting life away  
something must be done  
action must be taken  
I bleed in sympathy for the aborted and forsaken  
KILLER  
this is the source of my hate  
this is the match that starts the flame  
and it's burning me up inside

children are tested in labs as well  
what have they done to deserve this hell  
my flesh wants to kill you for what you have done  
but instead I'll educate you on your pathetic occupation  
a beating heart, treated like a worthless piece of trash  
I hate what you're doing and I won't let it last  
KILLER
