Lets flip the script a lil bit.

With this pimp ass type shit right here.

They don't really know about this though.

So recognize me LBC. Peep game on this though.

Now listen to the sound break em off a lil somethin

Ain't nuthin poppin but the hood so keep it bumpin

Rollin down the backstreets of East Long Beach yeah

Atlantic contract flossin with Big Beat

Conversation on the corner with the skirts to put the
word in

Here comes M&M and DJ Glaze in a Suburban

Leanin out the side of the ride, what's poppin locc

Lets grab these hoochies, E&J and blaze up the smoke

So we continued on a mission and I'm ready to ride

My kinfolk's on the corner, Twin crawl inside

And take a stroll with the locc, cuz we goin smoke
tonight

So parlay as we slide down MLK

With intentions to be makin a grip, so what is this

Understand the definition, big daddy's a pimp

Blowin smoke with my loccs, headin to the Eastside

So recognize game when you see the G's ride

(Chorus) x2

Come take a ride

And you best recognize

See how we ride

LBC's on our side

Yeah, that was that smooth type shit.

Takin you to another level with a different type flow

Yeah, give it to me. Take me to the bridge Glaze

Lets just glide, ride, dip, slide, to the Eastside
