Only someone running would run right into me  
Unless that someone was someone free like me

There are things I will not do  
I will even be mean and cruel  
And I will not stay with you  
unless you give me all of yourself

When I was a sandy blue  
and friendship dwelled in western true  
Smokin pill and lovely too  
That was before you gave a view

We'll make a future dream be ours  
Through your eyes I swallow flowers  
and disdain the winter showers  
choosing then to bathe in you

And I sing evil, I sing good  
I sing as a seagull should  
And if you melted then I would  
melt myself all into you  
Can you love the one that God does?  
Can you love the lily of the field?  
Can you tend the soil inside of her  
till all has been revealed?

[whistles verse]

And I sing evil, I sing good  
I sing as a seagull should  
And if you melted then I would  
melt myself all into you  
Can you love the one that God does (can you love the  
one that God does)?  
Can you love the lily of the field (can you love the lily of  
the field)?  
Can you tend the soil inside of her (can you tend the  
soil inside her)  
till all has been revealed?
