Peeverett / Price - Riff Bros. Music - ASCAP

If I could be with you tonight,
I would never let you down.
I would come for you, roll away the blue, speaking
words without a sound,
I would never let you down.

Like a shadow in the night,
Time is slowly moving on,
Hours go driftin' by, there's no need to cry, now at last I
found someone,
Finally our time has come.

Stay, won't you stay with me?
Take my time and love will set me free.
Stay, won't you stay with me?
Take my time and love will set me free.

All my worry's fade away,
Dreams become reality,
Finding love on time, gave me piece of mind, knowing
how real love can be,

More than just a fantasy.

Stay, won't you stay with me?
Take my time and love will set me free.
Stay, won't you stay with me?
Take my time and love will set me free.

{Rod - Solo - verse }

Stay, won't you stay with me?
Take my time and love will set me free.
Stay, won't you stay with me?
Take my time and love will set me free.

Stay, won't you stay with me?
Take my time and love will set me free, yeah.
