New night, new day, new place, new prey,
new rules, new names, new ways, new game.

In side, insane, in fear, in changes,
in need, in pain, in deep, enslaved.

No light, no space, no signs, no state,
no voice, no face, no choice, no grace.

Been good, been brave, been game, behaved,
been bad, been shamed, been made, been tamed.

Been cruel, been kind, been tense, been fine,
been free, been tied, seen time, pass by.

Been this, been that, been out, been back,
been bold, been brash, been cheap, been trash.

Been weak, been strong, been right, been on,
been there, been wrong, been here too long.
