welcome the avalanche  
the future sounds like a music  
that rumbled down at a mountain size  
come on, move on, the wait is over  
can't stop the rush, can't stop the ride

wake up, people, the time is now  
you never know when it's roller running out  
in an ocean tide, come on, step on the roller coaster  
can't stop the roll, can't stop the slide  
can't stop it  
roll, roll

welcome the avalanche  
the sound is music  
to the broken and the let-down

from sorrow skies we run  
we float, we come together  
can't stop the roll, can't stop the slide  
slide, yeah  
can't stop the rush, can't stop the ride  
ride  
no you can't stop it

can't stop the rush
