Running onto danger sands again
Now I'm falling where I used to stand
Rush into the raging surf with me
My only in, my only out, the deep surround

Oceans crashing around me
Moon and the stars are gone
When the darkness comes to pull me down
When light fails, when I'm weak, you are strong

Racing against the madness of my life
Stumbling at every step and slipping every slide
One glimmer of hope, I never thought I would see
My only in, my only out, the deep surround

Oceans crashing around me
Moon and the stars are gone
When the darkness comes to pull me down
When light fails, when I'm weak, you are strong

You are stronger
You are stronger, yeah
You are stronger
You are stronger

You are stronger
You are stronger, yeah
You are stronger
You are stronger, yeah

My only out, my only out
The deep surround
The deep surround

Oceans crashing around me
Moon and the stars are gone
When the darkness comes to pull me down
When life fails, when I'm weak

Oceans crashing around me
Moon and the stars are gone
When the darkness comes to pull me down

When life fails, when I'm weak, you are strong

You are
