Jesus Eternal
Eternally kissing the earth
Painful, sees through the real color of waves
Feeling the world tremble

Eternal, eternal, eternally, eternal, eternal, eternally
Eternal, eternal, eternally, eternal

Deep in the yellow May fall and bright
Scarlet to white hopeful
We, fair and simple, somehow in fight
Slow gleaming highs we resemble

Eternal, eternal, eternally, eternal, eternal, eternally
Eternal, eternal, eternally, eternal, eternal, eternally
Eternal
