Made it all up girl  
Out of anger, out of passion

Turn yourself away  
Make me lonely, love we only  
Need a place to hide  
Out of anger, out of love

Time crawls  
There's like beyond the castle walls  
Go, leave  
I said I didn't mind  
Did I believe it?  
This time in my kingdom of lies  
I'm alone

Turn the lights up girl  
Turn your anger to conviction  
All my shadows fade  
They made me lonely  
Lies that only  
Turned your heart away  
Out of anger, out of love

Time crawls  
There's life outside these city walls  
Go, leave  
I said I didn't mind, did I believe it?  
This time in my kingdom of lies,  
I'm alone

Time crawls
