

## Fold Zandura "Tonight Forever"

Visit "[Tonight Forever](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Now maybe i'm wrong  
But i can't see myself in your eyes  
And maybe it's taken so long  
Just to uncover what's been there all this time  
We never believed in each other

Don't say tonight is forever  
You're fooling yourself  
We're fading  
We're slowly losing the wonder  
If nothing else  
Of being in love (being in love)

Would you admit from the start  
Anything was better than speaking our minds?  
And now would it tear us apart  
To rediscover what we left behind?  
I just can't believe we let it slip away

Can't say tonight is forever  
We're fooling ourselves  
We're fading  
We're slowly losing the wonder  
If nothing else  
Of staying in love (staying in love)

Failing with words  
When it's all that we can do to be heard  
And when did we ever listen?

We never believed in each other!

Don't say tonight is forever  
We're fooling ourselves  
We're fading  
We're slowly losing the wonder  
If nothing else  
Of being in love (being in love)

Being in love! being in love!
