You remind me, you remind me  
That it's a trick to know you  
I don't even know  
How, I fell in love with you  
Was it your eyes, or was it your clothes  
Was the way you greeted me when the sun rolls, the  
sun rolls

I was lonely when I first called you  
We were kids just foolin' with lovin'  
You took me in  
And you didn't even know me or my games

'Cause I was out on the road, acting a lady  
I was with him for one night for some love and a song  
Then you came along, you don't care about money  
You don't care about time  
And our love just keeps rolling, rolling along

I said, "Hey, don't you worry  
'Cause we can get along"  
If were pleasin' each other  
Pleasin' each other, pleasin' each other  
Can't be wrong

'Cause I was out on the road, acting a lady  
I was with him for one night for some love and a song  
Then you came along, you don't care about money  
You don't care about time  
And our love just keeps rolling, rolling along

I said, "Hey, don't you worry  
'Cause we can get along"  
If were pleasin' each other  
Pleasin' each other, pleasin' each other  
Can't be wrong  
Pleasin' each other  
Pleasin' each other, pleasin' each other  
Can't be wrong, can't be wrong
