Bonnie Raitt-The Bed I Made  
(Maia Sharp/David Batteau)

All the ways I cared for you  
Are working like you want them to  
As I break down and you stay strong  
I write my own forgiveness song

I try to lie down and sleep it off like a drug  
But it's not your concern  
Another night and it's only right  
I toss and I turn in the bed I made

The wine dark room the flashing eyes  
That hung me from my string of lies  
You said you were numb from wondering  
I guess I wasn't listening

I try to lie down and sleep it off like a drug  
But you're not concerned  
Another night and it's only right  
That I toss and I turn in the bed I made

With my own hands  
I fashioned this frame  
And into the wood  
I carved out my name

I try to lie down and sleep it off like a drug  
But you're not concerned  
Another night and it's only right  
That I toss and I turn in the bed I made

And it's only right  
That I toss and I turn  
In the bed I made

The bed I made

The bed I made
