There was a boy who lay awake at night
Dreamin' what he'd do with his life
What would it take to trade the rain
In for that sunny day, that sunny day

I can't tell you what to do
You've got your dreams, I've got mine too
You can make it if you try
All I wanna say tonight is

Follow your dreams and you will see
Anything you want you can achieve
Time to begin, fly like the wind
Breakin' down these walls you will be free

Now that little boy is all grown up
So you see that little boy was me
I came here to let you know
That I found that sunny day, that sunny day

I can't tell you what to do
The dreams you hold will get you through
The power you need comes from within
Now you know it's in your hands

Follow your dreams and you will see
Anything you want you can achieve
Time to begin, fly like the wind
Breakin' down these walls you will be free

I heard time and time again
How everybody's got a dream but they feel they won't win
'Cause somebody who was illin', who wanted to be chillin'
So they could never make it even if they were willin'

So we put together this old school flow
So everybody in my generation oughtta know
No matter what you take from this scene
Now you and me, can follow our dreams?

Follow your dreams and you will see
Anything you want you can achieve
Time to begin, fly like the wind
Breakin' down these walls you will be free
