Producer for bonnie: jimmy smyth

Saw you on the mountain
An angel in disguise
Then when you descended to rescue my life
You made me believe in love
As long as love's around
I won't let you down
Oh, I'll never let you down

You taught me how to show it
And it's deeper than the sea
The amount of love I give you
Can't come close to what you give to me
I want the world to know it
'til I'm buried in the ground
I won't let you down
I'll never let you down

Cos when I look in you eyes
I'm hypnotised
And everything I thought I'd realised
Goes out the window
When you're by my side
I'm in paradise
Oh, what would I do if I lost you?
I'd hang my head in shame
Cos I know if I lost you, baby
I'd be the one to blame
Don't ever let me lose you
(cos) as long as love's around
I won't let you down
I'll never let you down
I won't let you down
Oh no, I'll never let you down
I won't let you down
