That's no way to say goodbye
Or these tears will never dry
This world is like a burning fire
Baby, can't we still be friends
Till it ends there is no end
Baby, can't you see my deep desire

*always forever, babe, I'll keep tryin'
Always forever, to stop it dyin'
I'm only a lonely child
Inside a lonely room
Come take my heart tonight
Make the clouds disappear
I'm only a lonely child
Inside a lonely room
My heart is burning while
I'm fighting my fears

Love can go along our way
Darling, can't you hear me say
Only a strong love will stay forever
Rain is such a lonesome sound
In the city of the lost and found
We'd better try hard to get it together
