(bonnie tyler/ paul hopkins/ peter oxendale)

Producer for bonnie: peter oxendale

Recorded in 1988 as a b-side for the single 'the best'.

lyrics taken from careful listening.

What I need
Is what you got
And a man like you must surely have a lot
It's what I need
So now you know
It takes a whole lot of loving
To put out the fire below

What you see
Is what you get
And if that's not enough
You know you ain't seen nothing yet
So hold on tight
And don't let go
It takes a whole lot of loving
To put out the fire below

The fire below
The fire below
It takes a whole lot of loving
To put out the fire below
The fire below
The fire below
It takes a whole lot of loving
To put out the fire below

When I play
It's not a game
I've got nothing to lose
But you sure got a lot to gain
Come on, come on, come on
I'm ready to go
It takes a whole lot of loving
To put out the fire below
Ooh, the fire below
The fire below
It takes a whole of loving

To put out the fire below
The fire below
The fire below
It takes a whole lot of loving
To put out the fire below, oh yeah, oh yeah

Oh yeah
Now if you take me up
I won't bring you down
Now, you know I ain't fooling
And I won't take no messing around
Come on, come on, come on
I'm ready to go
It takes a whole lot of loving
To put out the fire below

The fire below
The fire below
It takes a whole lot of loving
To put out the fire below
Come on, come on, come on
You know I'm ready to go
It takes a whole lot of loving
To put out the fire below

The fire below
The fire below
It takes a whole lot of loving
To put out the fire below
Come on, come on, come on
Now I'm ready to go
It takes a whole lot of loving
To put out the fire below, oh, oh, yeah
