(I touched the sun, it burned my hand
I touched the moon to cool it down
I push the plunger one last time
Now I've got to go, yes I've got to go)

I touched the sun, it burned my hand
I touched the moon to cool it down
I push the plunger one last time
Now I gotta go, yes I got to go

Now I feel you thrill me
Now I feel you move me
And now I feel you touch me
In ways I never knew before
And I never ever thought

Holy the water in my eye
Higher and higher now I climb
Deeper and deeper in your mind
Well I gotta go, yes I got to go

Now I feel you thrill me
Now I feel you move me
Now I feel you touch me
In ways I've never known before
And I never ever thought

Now I feel you thrill me
Now I feel you move me
Now I feel you touch me
In ways I've never known before

(yes, it's you)
Now I know who thrills me (yes, it's you)
Now I know who moves me (yes, it's you)
Now I know who touches me (yes, it's you)
And I never ever thought
