Johny wakes every day at 5 p.m.,
to do the things he's looking for,
kisses his wife and runs to work,
'cause all the things he wants
are waiting out of home

He wanna it all
Big houses, pornostars,
big carslike a superstar
Spend money in stylish wear,
and all the things money can buy

Always thinking a lot
with his shaved head,
like dr. evil and mine me,
Always having new ideias
to raise his bill account,
and hang out with new girls.

Casino bars with black games,
long drinks and many playmates,
that's all he wanna do.
