Cleaning an old box
I found so many things
That I'd forgotten for a while
The pictures, the letters,
The rhymes that we shared
A teddy bear
That you gave me on valentine's

Always and always you
Will rock my heart

Always and always you
Will rock my heart

My time is over,
But I'll be back for sure
Tomorrow is another day
Oh!, those pictures,
Those letters,
The rhymes that we shared
That bear you gave me on valentine's

Always and always you
Will rock my heart

Always and always you
Will rock my heart

Always and always you
Will rock my heart

Always and always you
Will rock my heart

Always and always you
Will rock my heart

Always and always you
Will rock my heart
