It was meant to be
But all along it never meant a thing
Never stopped to ask you why
You didn't pass me by

Did you see me in your life?
Flash before your eyes
Was it just that I wasn't hard enough
Hard enough for you

Stop using my
Confusion
Wait, wait

There's a world out there
(There's a world out there)
Don't you deny me
(Don't you deny me)

Give me one last wish
(Give me one last wish)
There's a world out there

Elementary, I solved them all
All your mysteries
Settle down and in good time
We can solve all mine

Tell me lies or tell me when
Tear me up again
And I will let you know when I've had enough
Had enough of you

Stop using my
Confusion
Wait, wait

There's a world out there
(There's a world out there)
Don't you deny me
(Don't you deny me)

Give me one last wish
(There's a world out there)
There's a world out there
(Don't you deny me)

I know you've got your reasons
Hey, let's call it even
Turn out all the lights
And go to bed

Still I get this feeling
No one will believe me
When I let these ghosts
Outside my head

There's a world out there
(There's a world out there)
Don't you deny me
(Don't you deny me)

Give me one last wish
(Give me one last wish)
Don't you deny me
(Don't you deny me)

There's a world out there
(There's a world out there)
Don't you deny me
(Don't you deny me)

Give me one last wish
(There's a world out there)
There's a world out there
(Don't you deny me)
