Tie up the transmission this one is not a test  
Silent all these years but now I'm getting you off my  
chest  
Reeling in the moment, I know it will never last  
Tired of keepin quiet, riding with all the rest

Stuck in the middle no-ones making a move  
I'm looking in and I've got nothing to lose

I will comeback, I will comeback  
I will comeback, I will comeback  
I will comeback, I will comeback  
I will comeback, I will comeback for you  
For you

Hide behind obsessions, I'm trying to keep in check  
Ride you for the finish we're coming??

Reeling in the moment I know it will never last  
Rise up to the surface high but I'm sinking fast

Stuck in the middle no-ones making a move  
I'm looking in and I've got nothing to lose

I will comeback, I will comeback  
I will comeback, I will comeback  
I will comeback, I will comeback  
I will comeback, I will comeback for you

Stuck in the middle no-ones making a move  
I'm looking in and I've got nothing to lose

I will comeback, I will comeback [x13]  
I will comeback, I will comeback for you
