One of these Nights I'll shake you  
I will take you from my veins  
I'm gettin' tired of waiting  
It's time to empty me

Chorus:

We can rip apart this bleeding heart, don't you wanna  
watch me spill?  
Bleed you out again

Feeling me reach inside you  
And I feel you run through me  
Funny how you remind me  
I got memories to drain

Chorus X2

Bleed me slowly until every vein is empty just like you  
Bleed me slowly until every vein is empty just like you  
Please oh, please oh, you're draining me  
I've got to bleed myself of you  
Please oh, please oh, you're draining me  
I've got to bleed, I've got to bleed for you

Chorus X2
