I was out in America
Was out in the world, saw every place
The deserts of Africa
Was lost in them, was lost in space
Now I know, I was always so wrong
Time, it was time
I came home.

And now I see the open sky
Is ahead of us
The sky became one of us
I came home
And in the sky the sun it shines
Just because of us
The sky became one of us
I came home

And now I feel save and warm
I've found what I was looking for so lang
It has always been here before
How could I always be so wrong
You've led me to the sun
Time, it was time
I came home

And now I see the open sky
Is ahead of us
The sky became one of us
I came home
And in the sky the sun it shines
Just because of us
The sky became one of us
I came home

We have, we have to come back home
We have, we have to come back home
We have, we have to come back home
