Quietness inside my mind  
Storm inside my life  
I have come to leave this place  
And step into the light  
Shine on my life  
Shine on my life  
Shine on my life  
Shine on my life

Time has come to change it all  
Time has come to fly  
Someone called my name out loud  
Someone called tonight  
Shine on my life  
Shine on my life  
Shine on my life  
Shine on

If I could find the way to you  
What else was left for me to do  
Would I return in peace someday  
If I could find this way

What you give is what you get  
Send out all your love  
Send it out you'll get it back  
More than enough  
Send out your love  
Send out your love  
Send out your love  
Send out, send out your love

If I could find the way to you  
What else was left for me to do  
Would I return in peace someday  
If I could find this way
