I think of yesterday
And all the times I spent being lonely
I watched the young be young
While all the singers sung
About the way I felt

And the days are here again
When all the lights go down
What do they show me
The rules are all the same
It's just a different game
To tell you how I feel

I know it seems so rare
I was always there
uhuh uhuh
I can't stop digging the way you make me feel
uhuh uhuh
I can't stop digging the way
uhuh uhuh
I can't stop digging the way you make me feel

I took a little time
Scripted all the things I had to tell you
I'll send them through the mail
And if all goes well
It'd be a day or two

I spent some extra nights
Drank to roget the things that I've shown you
By now the smoke has cleared

When all along I've feared it turn out there some way
Though it might be wrong
My light is always on

uhuh uhuh
I can't stop digging the way you make me feel
uhuh uhuh
I can't stop digging the way
uhuh uhuh
I can't stop digging the way you make me feel

bababa baba baba um ba dadada da da um dada
(it just goes on like that for a while)

Look at us now
Ask me how did this get so
I'll tell you how
I drag my shoes on the ground
But I'm taking them off
And I'm ready to walk

uhuh uhuh
I can't stop digging the way you make me feel
uhuh uhuh
I can't stop digging the way
uhuh uhuh
I can't stop digging the way you make me feel

Feels like we've been here before
I can't stop digging the way you make me feel
