You say your gonna take it down  
You say you wanna take my heart away  
Well go ahead and rip out  
Just right before my blood drips down your face

The better times a waste of days  
Cause hun you see the stain wont fade away  
Only fool have turned right before  
So you wanna talk about the better days

Remember the worst thing that you said  
Was tonight your all alone in a bed  
And so far the best thats I've had  
Was the day I cut you up and I ran

I know you've heard this all before

And who could ask for more  
I had your insides baby  
Now they're outside on the floor  
I hear you crying out

And who could ask for more  
I really hope this time  
You say its all you've waited for  
I hear you screaming crying out  
Oh no  
This could be heave

You loved it when you weren't played  
I say don't worry i'm just with my friends  
I tell myself don't loose your head  
Tonight you smell like someone else's bed

You said you (wait for me now)  
Well forever is a word you know now  
I know you've heard this all before  
1.....2.....here we go

And who could ask for more  
I had your insides baby  
Now they're outside on the floor

I hear you crying out

And who could ask for more (i think i've had enough)  
I really hope this time  
You say its all you've waited for  
I hear you screaming crying out  
Oh no  
This could be heaven  
Yeah could be heaven

Now said your breaking me down  
Your building me up  
Your tearing me down  
I'm breaking you up  
Yoohohoh

Now  
I say your breaking me down  
You build me up  
You tear me down  
I'm riping you up  
Wooh ohohoh

Who could ask for more  
I had your insides baby  
Now they're outside on the floor  
I hear you crying out

And who could ask for more  
I had your insides baby  
Now they're outside on the floor  
I hear you crying out

And who could ask for more (i think i've had enough)  
I really hope this time  
You say its all you've waited for  
I hear you screaming crying out  
Oh no  
This could be heaven  
Yeah i think you've had enough
