You moan like a fly  
And chase the melting ice  
No wrongs to right  
A smashed tail light

As long as there's bark  
As long as there's bite  
You'll say  
That life is a game for lovers like these

You know you'll land someday  
You know you'll land someday  
You know youâ€™ll land  
And youâ€™ll tell us weâ€™ve been saved

Mute swan  
When will your day arrive?  
You're barbed wire  
Facing the skyline

As long as there's bark  
As long as there's bite  
You'll say  
That life is a game for lovers like these

You know you'll land someday  
You know you'll land someday  
You know youâ€™ll land  
And youâ€™ll tell us weâ€™ve been saved
