It's time, alright!
For us to stand up and fight
It's time, alright!
To set the story straight tonight

I look around today
I see a messed up place
This world we live in
Doesn't have a clue

About the things you say
Decisions that get made
They affect our lives so
Where's our try, yeah!

It's time, alright!
For us to stand up and fight
It's time, alright!
To set the story straight tonight

You think we waste our time
Leading worthless lives
At school and home
We've done nothing wrong

You judge u son what we wear
And how we cut our hair
But we're the future
So it's up to you, yeah!
It's up to you, oh yeah!

It's time, alright!
For us to stand up and fight
It's time, alright!
To set the story straight tonight

You'd rather run away...
