I remember the days when we were young
I slept at your house on school nights I'd stay
Sleeping in your bed you by my side
I remember thinking you'd be my bride

Sorry
I didn't mean
To leave you when you needed me the most
I don't
want us now
But God I wanted us then

But now I live so far away
Our distance helps me forget what we had
But now I'm stupid writing you love songs
To remind me of why I'm so sad

Sorry
I didn't mean
To leave you when you needed me the most
I don't
want us now
But God I wanted us then

Cause now I live so far away
Theres so much I didn't say
A wreck by night a wreck by day
Until I have you with me

Sorry
I didn't mean
To leave you when you needed me the most
I don't
want us now
But God I wanted us then
