"Too Sad For Hollywood"

"Let me be" is what you said to me as I sat down
There are things that you couldn't ever dream to
understand
So just lock up as you leave
A movie scene from the cheapest screens in town
Town... This town...

Chorus

Yeah

Fed up cut it

This scene is way too dramatic for me

So shut up your done

You've slapped this face too many times to be anything
but mad

This movie is far too sad to make Hollywood these
days...

Just turn around cause I've had it up to here with you
This is more than this subject could possibly deserve
To get you yelling so loud
Seems easier than blinking these past days
Days... These days..

Chorus

Always have your way...

Always have your way... Yeah...
