She cast a spell down on everyone And I couldn't tell
the fucked up things we've done Just to be with her Let
me tell you a story about this girl She makes us all go
crazy Crazy for her We'd do anything she told us to
Cause she makes us all go crazy So crazy for her I
don't know why I try so hard To get into her heart Next
to impossible To even make her smile Let me tell you a
story about this girl She makes us all go crazy Crazy for
her We'd do anything she told us to Cause she makes
us all go crazy So crazy for her Magic happens
everyday Let me ask you now Do you believe? Do you
believe in hers? She's got everyone at bay Let me ask
you now Do you believe? Do you believe in hers?
