"Saddest Song I Ever Heard"

Visit "[Saddest Song I Ever Heard](#)" on MotoLyrics.com

Remember that song
it was your song
it was my song
it used to be our song
it use to make me smile
i memorized every line
ooh in happier times

now when the radio plays
i just wanna run away
'cause it hurts so much inside
oh that song just makes me cry

Now it's the saddest song
I ever heard
my heart is breaking baby now with - every word
use to be the sweetest song
but now you're gone
and i can't
no I can't
understand
oh why
tell me why - tell me why
why did our song turn so sad

baby baby baby

Remember those words
remember those lines
we had a song so sweet
we had a love so right
but like a song must end
our love just faded to soon
left me still loving

now when the music goes on
i pray they never play that song
it's just to much to take (just to make to take)
it just makes my heart break

Now it's the saddest song

I ever heard
my heart is breaking baby now with - every word
use to be the sweetest song
but now you're gone
and i can't
no I can't
understand
oh why
tell me why - tell me why
why did our song turn so sad

oh baby baby

every time i hear the melody
memories come down on me - yeah
every beat makes me think of you
(makes me think of you oh yeah)
how can I get you off my mind
don't wanna hear that sound if you're not around

Now it's the saddest song
I ever heard
my heart is breaking baby now with - every word
use to be the sweetest song
but now you're gone
and i can't
no I can't
understand
oh why
tell me why - tell me why
why did our song turn so sad
