We've seen a lot of things
We've seen a lot of shows
We've seen a lot of bands
Come and go

We're not trying to restart
We're trying to be part
Of a Sound that guided us
That led our hearts

Thank you still
For the songs you
Played for us

We know there's so much more
Than a wall to break down
We need to go ahead
Before we start to drown

Thank you still
For the songs
You played for us
It's our reference to you!
