"Last Goodbye"

Thought I'd lost you without any reason
Sure I don't know you
I talked while you were sitting still

(My last goodbye)
I thought I'd love you anyway
(My last goodbye to you)
Without any reason
(My last goodbye forever)
I have gone away today
(My last goodbye to you)
You're still there

I am not an angel, don't even look like one
Sometimes I kick your ass
And break your heart for fun

But at most times I feel sick...
With a good reason:
Never meant to hurt you anyway
But I did

Are we gonna be as one?
Will it still be so much fun?

When we sit around for hours
And talk the night away
Tell me, is breaking up so much fun?

This is my last goodbye to you!
