So now we're back, back on track -
But not together as we used to be
In the same room but far apart -
Apathy where once the fire warmed our hearts

And I wonder what you think
When you see me standing there
There's so much I want to tell you
But you don't even seem to care

The night's too long, I can't go home,
I hear the laughter in the air around you
Congratulations, you seem okay -
Don't care about me cause I'll be fine someday

And I'm asking myself why
I'm still wondering what you feel
But disappointment guides my search
For the path that's leading right away from you

This song can't say
Everything you broke in me
But this chord shall ring in your ears
Until I cried my last tear for you
