I will be standing strong
I will not move along
I know a place where we can hide
And safely be as one

You say that you have come
With all your work undone
You closed the door to where
You can feel safe and clean and warm

Where it's clean and warm...

There is no place where you can feel at home
No matter what you say your will won't come

One day you'll realize
You better think of twice
You'll have to take a stand
Which means you you have to choose one side

It's a long way to go
And there's no turning back
One day Iâ´m gonna move my home
And take it back from you

When it's clean and warm...

There is no place...
