So now we're back, back on track -  
But not together as we used to be  
In the same room but far apart -  
Apathy where once the fire warmed our hearts

And I wonder what you think  
When you see me standing there  
There's so much I want to tell you  
But you don't even seem to care

The night's too long, I can't go home,  
I hear the laughter in the air around you  
Congratulations, you seem okay -  
Don't care about me cause I'll be fine someday

And I'm asking myself why  
I'm still wondering what you feel  
But disappointment guides my search  
For the path that's leading right away from you

This song can't say  
Everything you broke in me  
But this chord shall ring in your ears  
Until I cried my last tear for you
