Fight, fight, fight, fight for what is right. It's not my
fault that I'm
Like flies to a light.
I've said it before. I'll say it tonight. I'll break your neck,
jaw, teeth
In a fight.
Don't tempt me, I know that I'm right. I'll never let you
bitch out, or out
Of my site.
It's not unheard that I stand by my word by giving you
everything that you
Deserve.
I will give you everything that you deserve.
You don't deserve anything you don't deserve.
I will show you what I think of you. I'll bury you
underground. I'll bury
You underground.
Give up. Give in. I'm ready to win.
I'll wipe that shit-eating grin right off your face and
until the day.
I will make it known that it's not okay.
Fight, fight, fight for what is right. Ya gotta fight, fight,
fight for
What is right.
You don't deserve anything.
Fight, fight, fight for what is right. Ya gotta fight, fight,
fight for
What is right.
You don't deserve this life we live. You don't deserve.
