Don't take these words from my mouth only to twist
them around,
All the things I've done by now have only been for your
own good

If I'm gone by now, don't find me
I left this town with everything behind me
All I wanted was to make you happy,
Or was that what I wanted for me,
Every wrong answer you've searched for
Every open door you've ignored
Every time you let yourself bleed
You wonder what you're fighting for
So tell me what you're fighting for

I've said this before, and I'll say it again
You've looked in the mirror
You've made no amends with yourself, or anyone else
Lost and lonely again, with no one's help
Pull yourself together is all I have to say
It's black and white, you're always right
Don't throw it all away
Take my hand, not your life
I know you're not okay so don't say you're okay
(I know you're not okay so don't say you're okay)

If I'm gone by now, don't find me
I left this town with everything behind me
All I wanted was to make you happy,
Or was that what I wanted for me,
Every wrong answer you've searched for
Every open door you've ignored
Every time you let yourself bleed
You wonder what you're fighting for

Is this how you want things to be?
Is this how you...?

I've said this before, and I'll say it again
You've looked in the mirror
You've made no amends with yourself, or anyone else

Lost and lonely again, with no one's help
Pull yourself together is all I have to say
It's black and white, you're always right
Don't throw it all away
Take my hand, not your life
I know you're not okay so don't say you're okay
[x2]

I can see it in your eyes
I can see you're hurt
It's always in your eyes
Always in your eyes,

You're falling down again
He'll pick you back up
You'll pull him back in
You're pulling me down again
I will not save you.

(?)

I can see it in your eyes
I can see you're hurt
It's always in your eyes
Always in your eyes

I can see it in your eyes
I can see you're hurt...
