Walking on the trail of tears  
Chained to the other side  
Facing all the darkest fear  
No one leaves tonight

Why are all my dreams so bloody red  
Evil nightmares burning in my head  
The agony only one can fix  
His number is 666  
Raised by a jackal in the night

Demonized Evilized  
Die in the name of misery  
Demonized Evilized  
Lost in the forest of agony

Born under a black star  
Left all alone in the snow  
But I've made it so far  
A hand from the abyss below

Why are all my dreams so bloody red  
Evil nightmares burning in my head  
The agony only one can fix  
His number is 666  
Raised by a jackal in the night

Demonized Evilized  
Die in the name of misery  
Demonized Evilized  
Lost in the forest of agony

Child of the damned is growing in me  
The Master of Darkness will soon be released  
Child of the damned is growing in me  
The Master of Darkness will soon be released
