These days everybody's got something they want to  
say to me

These days everybody's got advice on how to live

All you mother fuckers well you don't know SHIT  
This is my life and I'm the one who wants to live it  
And I'll admit that I do not know SHIT but  
It's up to me I'm gonna do it how I wanna do it

I don't need your advice  
Let me live my own life  
I can fuck it up myself

I know everybody thinks I'm stupid, young, dumb and  
naive  
I know everybody thinks they know what's best for me

All you mother fuckers well you don't know SHIT  
I've got a mind and I am not afraid to use it  
I know you shouldn't rhyme shit with SHIT but  
This is my song I'm gonna sing it how I wanna sing it

[Chorus]

Myself.....  
And I will, and I will yeah yeah

All you mother fuckers well you don't know SHIT  
This is my life and I'm the one who wants to live it  
And I'll admit that I do not know SHIT but  
It's up to me I'm gonna do it how I wanna do it
