Saw my face this morning, woke up to late again
Mirror shows me more than i can stand so i turn away
All the second prizes, all the compromises
Slowly realizin' somethings wrong and i don't know why

I can't keep up this hopeless fight
I know I'll never get it right

This is the worst day of my life (wo oh)
This is the worst day of my life (yeah yeah)

Use to dream of fortune, fame love and adventure
Use to hope for something, now i dream about not
waking up
Thought i could be something, now i know im nothin'
All this time i waisted knowing I would someday fail

I just can't take another day
I wish i could make it go away

This is the worst day of my life (wo oh)
This is the worst day of my life (yeah yeah)

Today i realized
Today i found
Today it came to me
Today it all came crashing down
Today the truth was found (wo oh)

This is the worst day... [x4]
This is the worst day of my life (wo oh)
This is the worst day of my life (yeah yeah)
