don't tell me to stop crying  
please just hold me while I do  
soothe me with your silence  
and just cradle me to you  
don't push me for my reasons  
or expect me to explain  
how can I in five minutes  
shift a lifetime's hidden pain

#### **CHORUS**

don't tell your girlfriend about me  
cause your girlfriend won't like girls like me  
don't tell your girlfriend about me  
if you just hold me  
hold me  
hold me  
I went to see a psychic  
and I paid for good advice  
she said forget a romance  
til you've sorted out your life  
be your own father and your mother  
and your sister and brother

and even try to crack the art

of being your own lover

CHORUS

in my darkest hour you'll be mine

least while these dreams are no crime

or are they

(girlfriend)

I'm in my proper place I believe

an overabundance

you see, you told me

(girlfriend)

don't tell me to stop crying

please just hold me while I do

soothe me with your silence

and just cradle me to you

don't push me for my reasons

or expect me to explain

how come I stay unhappy

til the ending of my pain

CHORUS
