Christians murdered indians
Christians murdered indians

In the history of the human race
Of all the inspirations for the separation of man from
his true tribal culture
Of all the inspirations for acts of violence from one
man onto another,
From one nation onto another, from one oppressor
onto the oppressed.
There is no more guilty party and inspiration than those
books known
As the holy bible the Koran and the bhagavad gita to
spread separation of mankind.

The bible is bullshit, the bible is bullshit
The bible is bullshit, the Koran is a lie, the bhagavad
gita did not fall from the sky
These are the books that were written by men.
They've caused wars, now follow if you can,

They took away our love and gave us fear
Tried to make us hate the one who put us here
Then they took our sacred songs and made them
wrong
Then they took away our prayers and gave us theirs

The bible is bullshit, the Koran is a lie, the bhagavad
gita did not fall from the sky
These are the books that were written by men.
They've caused wars, now follow if you can,

First they created sin so they could win
Then they built the cages they could put us in
Then they took away our tribes and gave us jail
Then they took away the earth and gave us hell

The bible is bullshit, the Koran is a lie, the bhagavad
gita did not fall from the sky
These are the books that were written by men.
They've caused wars, now follow if you can,

It's time for you to love one another
It's time for you recognize your brother
It's time for us to stop killing our mother
It's time for us to care for each other

The bible is bullshit, the bible is bullshit
The bible is bullshit, the bible is bullshit

It's time for you to love one another
It's time for you recognize your brother
It's time for us to stop killing our mother

It's time for us to take care of each other
It's time for you to love one another
It's time for you recognize your brother
It's time for us to stop killing our mother
It's time for us to take care of each other

The bible is bullshit, the Koran is a lie, the bhagavad
