The white is wide
What is on the other side
Blackened sky
You won't believe your own two eyes

The highest tide
Coming through the nebulae
All alone
50 million miles below

Begin the journey off in space
And who will take control
Who will get off

Begin the journey off in space
And who will take control
Who will get off

Speed of light
Coming through your own insight

Or did we find the end

Turning space
Journey through this foreign place
Let me home
The mystery we must unfold
Begin the journey off in space
And who will take control
Who will get off

Begin the journey off in space
And who will take control
Who will get off

The thoughts and black
Go on the human persistence
The fires in the sky have to prove
The other side's existence

Begin the journey off in space
And who will take control

Who will get off

Begin the journey off in space

And who will take control

What will we meet

At the other

Side of the

End of the

Universe
