### "Angel Tonight"

When nothing goes my way  
And late nights turn the days  
I spend my life in and out of trouble  
And everywhere I turn, I never seem to learn  
Ending up my own words and me  
I can't get by alone, I'm helpless on my own  
When I'm desperated and I got nowhere to go

I need an angel tonight  
To come around and save me this time  
Just take away the pain that's killing me and show me  
the light

I need an angel tonight

People I meet when I'm out there on the street  
Open up the door to temptation  
And everytime they try, it's hard up to get by  
And find the straight to carry me through  
You know there's a price to pay each time I lose my way  
Now I need someone here by my side

I need an angel tonight  
To come around and save me this time  
Just take away the pain that's killing me and show me  
the light

I need an angel tonight

To come and help me now  
She gets me what I need  
I got everything above me now

I need an angel tonight  
To come around and save me this time  
Just take away the pain that's killing me and show me  
the light

I need an angel  
Uhhh an angel

Talking about an angel  
Dreaming about an angel  
Ohh an angel tonight  
Yeah, just an angel  
Talking about an angel
