"Can't Slow Down"

Visit "[Can't Slow Down](#)" on MotoLyrics.com

Feel the blood rushing through my veins
Baby don't stop
Because I'm ready to blow
Standing still doesn't work for me
Taking my shot
I've got places to go

Once you get just a little taste
And you feel the heat coming on strong
There's no way you're turning back
Oh, I got to keep moving on

Do or die, every day and night
My eyes are on the prize
With the road underneath my feet
I'm learning how to fly

I can't slow down
I'm on the run, chasing down a dream
I won't slow down
I need some room, some room to breath
And no matter how the world may change
It's the fire inside, the burning flame, oh
I won't slow down
I can't slow down

Take a chance, time to make a change
Hit while it's hot
I've got nothing to loose
Taking
One day
At a time
Wanna see it all come true

Do or die, every day and night
My eyes are on the prize

With the road underneath my feet
I'm learning how to fly

I can't slow down
I'm on the run, chasing down a dream
I won't slow down
I need some room, some room to breath
And no matter how the world may change
It's the fire inside, the burning flame, oh
I won't slow down
I can't slow down

Whoooooooooooo

Ahhhhhhhhhhh

I can't slow down
I'm on the run, chasing down a dream
I won't slow down
I need some room, some room to breath
And no matter how the world may change
It's the fire inside, the burning flame, oh
I won't slow down
I can't slow down, I can't slow down
