

Foreigner "Just Between You And Me"

Visit "[Just Between You And Me](#)" on [MotoLyrics.com](#)

Staring at eachother with accusing eyes
Keep our voices low, and don't act surprised
If the word gets out, yeah, that's alright
I know you're just looking for some sympathy
But listen you don't know, how it gets back to me
You're getting reckless girl, but that's alright

Now don't you know that one cold world
Is going to lead to another?
And then we'll get nowhere to go

Even if heaven and earth collide tonight
We'll be all alone in a different light
I don't care what the world can see
It's just between you and me, you and me

I see telltale signs of a love in decline
There should be something to say, but we don't take
the time
And I don't understand, but that's alright
Now you can turn the page or you can tear me apart
Don't make an open book, out of my private heart
You should know better now, that's alright

Don't you know that one cold world
Is going to lead to another?
And then we'll get nowhere to go

Even if heaven and earth collide tonight
We'll be all alone in a different light
I don't care what the world can see
It's just between you and me
I said, it's just between you and me

If we don't work this out, we won't recover
We'll lose this soulful love for one another
But with all I've heard and all I've seen
I'm still lost in your mystery

Forgive me staring at eachother with accusing eyes
Keep our voices low, don't act surprised
If the word gets out, yeah, that's alright

And don't you know that one cold world
Is going to lead to another?
And then we'll get nowhere to go

Even if heaven and earth collide tonight
We'll be all alone in a different light
Now I don't care what the world can see
It's just between you and me
Even if heaven and earth collide tonight
We'll be all alone in a different light
Now I don't care what the world can see
But it's just between you and me
It's just between you and me, you and me

(Heaven and earth)
I don't understand
Ooh-ooh ooh
You're reckless girl
(All alone)
One cold, cold
Would lead to another
(Heaven and earth)
All alone
All alone
(Heaven and earth)
Ooh-ooh ooh
