Time, our precious time
In the beginning
Your heart and mine
I sought our love
Was one of a kind
I sought we were winning
But I was one step behind

Oh oh uh uh
Words, I couldn't say
The words that would keep you
From running away
But I should've tried
Even begged you to stay
I felt the tears of an Angel
Fall from Heaven that day

I know, I know
Your voice keeps haunting me
Come home, come home
Come on back to me

I know it ain't easy
You're a part of me
You're the wings on my heart

Can we give our love another try?
Can we keep our broken dream alive?
Now more than ever
With Heaven on our side
(Ooh, oh, oh)

Can we give our love one more night?
I miss you Angel, can we make it right?
Now and forever with Heaven on our side
(On our side)

This tender love slipped through our hands
Two broken hearts could not withstand it
Girl, I know what I put you to
If you need me now, I'll be there for you

And I know it ain't easy
You're still a part of me
You're wings on my heart

Can we give our love another try?
Can we keep our broken dream alive?
Now more than ever
With Heaven on our side
(Oh, oh)

Can we give our love just one more night?
Oh! Angel baby, shine your golden light
Now and forever I know Heaven on our side
On our side

(Give our love another try)
Give our love another try
(Can we keep our broken dream alive?)
Can we keep our broken dream alive?
Now more than ever
(Heaven on our side)
With Heaven, Heaven on our side
(On our side)
On our side
